

ENGLISH

We will master danger and fear with *Max*, the main character of our last journey to *Where the Wild Things Are*. Students will have the opportunity to recreate and describe a jungle setting and mysterious creatures as we learn how to tame them with our magic tricks!

ESPAÑOL

Introduciremos la w, x, y.
Lectura y escritura de palabras con estas grafías.
Repaso de letras ya trabajadas.
Escritura y lectura de palabras y frases cortas.

TOPIC - HISTORY

We will continue to learn about pirates as we travel around the Canary Islands learning about Amaro Pargo's adventures. Children will read, write and plot coordinates before they can go on a real treasure hunt around the school!

Year 1
Summer Term 2

MATHS

During this half term children will be able to count, order and recognize numbers to 100!
They will also be recognizing coins and notes for our classroom supermarket shopping activity and telling the time to the hour and half hour to describe their daily routines.

Computing

Children will become film makers by recording and editing their own videos and animated stories with the Book Creator app and camera.

MUSIC

To embrace our Canarian culture, children will learn and perform the traditional dance *La Raspa*.

Science

Pupils will be exploring their senses engaging with different experiments where they will have to see, feel, taste, touch and hear to create their own sensorial journey around the school.

P.S.H.E.E

We will be travelling around the world, exploring different cultures celebrating diversity around the school for our annual international day.

ART

We will be celebrating Día de Canarias by creating our own *sun catchers* based on César Manrique's fish and modelling clay to represent Canarian ornaments.

P.E.

Children will be participating and learning about traditional Canarian games such as marbles and spinning tops (*boliches y trompos*).
